KEEWAYTINOOK SECONDARY SCHOOL

YOUTH LEARNING BY COMPUTER

WHO'S ON LINE?

Keewaytinook Okimakanak is offering courses through *Keewaytinook Secondary School* to teens who want to live at home in the north. In 2000-2001, grade 9 will be available to students from Deer Lake, Fort Severn, Keewaywin, McDowell Lake, North Spirit Lake and Poplar Hill.

WHAT'S BEING OFFERED?

The grade 9 program in 2000-2001 will include:

English
Mathematics
Science
Geography
Native Language
Native Studies
Art
Business (keyboarding)

Students can take
Academic or Applied Courses.

Other options may be available.

WHERE DO WE GO FOR CLASSES?

You will attend school all day in your community. You may share a classroom with others such as grade 7 and 8 students.

WHO HELPS US?

You will spend the day with a *trained teacher (mentor)* in your community.

The *teacher mentor* will help you use your time wisely and help you if you are stuck in your courses.

WHO 'S TEACHING?

Every teacher mentor teaches one subject to students in all the communities. For example, your teacher mentor may be the *course instructor* for mathematics. The *course instructor* for geography will be the teacher mentor in another community.

DO THE CREDITS COUNT?

Yes!! The courses will be accredited by the Ontario Ministry of Education. They will count towards your secondary school diploma.

HOW DOES IT WORK?

- Classes are semestered. You take some classes in September and others in February.
- In the morning, you sign on to your computer and download your lessons for all classes.
- You go offline, and do your assignments. This may involve:
 - working on your own
 - working in small groups with others in your classroom;
 - working in small groups via computer;
 - searching on the INTERNET.
- Before the end of the day, you will upload what you have done during the day. You will add comments to the online class discussion.
- The next morning, you download what other students have written, as well as your new work for the day. You can reply to what the other students and teachers have said when you upload your work in the afternoon. And so it goes.

For some classes, you will have a text (like a Math text, or English novel or short stories.) For other classes, you will do lots of searching on the INTERNET for the materials that you use.
